A delegation from the State of Georgia, consisting of a number of its most prominent citizens, accompanied by all the members of Congress from the State, visited President Grant to lay before him the project of an interoceanic canal to unite the waters of the Mississippi with the Atlantic Ocean via the Tennessee, Coosa and Altamaho rivers, now before Congress, and to ask his co-operation in behalf of the enterprise, Colon Frobell, as spokesman, addressed the President at length giving a clear and full explanation of the proposed route of the canal and its manifold advantages. The reply of the President exhibited an intimate knowledge of the country, his sense of Old Stock Bourbon. the great importance of the undertaking, and he thought that by a proper presentation of the case before the two Houses there would be a strong disposition manifested to carry it through. He regarded it as deserving of national aid. The delegation left well pleased with their reception.

We are gratified to learn from Mr. Miller that our former Diana Rye. townsman, Dr. Wheatly, is doing a thriving business at the iron works, and seems to enjoy life in the mountains as well as a native and to the manner.born."

A serious riot took place at Kharkoff, a large market town in South Russia, recently, caused by the interference of the police with the Easter amusements of the people. The fire the crowd by throwing water on them. This so exasperated the populace that they attacked the fire and police stations and gutted them. The Governor ordered out troops, who were stoned by the mob, whereupon they over every State, and fired, and many citizens were killed and wounded. The rioters then dispersed, and at last accounts the city was quiet, but under martial law.

Society for the Liberation of Religion from the State Patronage and Control heavy iron-hooped coopwas beld on May 1, in Mr. Spurgeon's great chapel, the Tabérnacle, at New- erage, to safely bear transington, London, upward of four thousand people being present. Resolutions, pledging the meeting to the continued the United States. agitation in favor of the disestablishment and disendowment of the English Church, were carried unanimously. Continued reference was made during the meeting to the present position of the education question in England, and a strong determination expressed to leave no stone unturned

From Leland's Flowery Land.

A Thousand Years Ago.

Thou and I in spirit land, A thousand years ago, Watched the waves beat on the strand, Ceaseless ebb and &ow: Vowed to love and ever love-A thousand years ago.

Tnou and I in green wood shade, Nine hundred years ago, Heard the wild dove in the glade Murmuring soft and low-Vowed to love forevermore, Nine hundred years ago.

Thou and I in yonder star, Eight hundred years ago, Saw strange forms of light afar In wiid beauty glow; All things change, but love endures Now as long ago.

Thou and I in Norman balls, Seven hundred years ago, Heard the warden on the walls Loud his trumpet blow-Seven hundred years ago.

Thou and I in Germany, .Then I bound the red cross on: True love, I must go, In the endless flow !""

Thou and I in Syrian plains. Five hundred years ago, Felt the wild fire in our veins To a fever glow!
All things die, but love lives on Now as long ago!

Thou and I in shadow-land, Four hundred years ago, Saw strange flowers bloom on the strand, Heard strange breezes blow: In the ideal love is real, This alone I know.

Thou and I in Italy. Three hundred years ago, Lived in faith and died for God, Felt the faggots glow; Ever new and ever true, Three hundred years ago.

Thou and I on Southern seas, Two hundred years ago, Felt the perfumed even breeze, Spoke in Spanish by the trees, Had no care or wo Life went dreamily in song Two hundred years ago,

Thou and I 'mid Northern snows One hundred years ago, Led an iron, silent life. And were glad to flow Onward into changing death, One hundred years ago.

Thou and I but yesterday Met in fashion's show, Love, did you remember me, Love of long ago? Yes; we keep the fond oath sworn A thousand years ago!

A BEAUTIFUL STORY.

BY JEAN INGELOW.

N OUPHE!" perhaps you exclaim; "and pray, what might that be " An Ouphe, fair questioner, though you may never have heard of him, was a creature well known-by hearsay, at least-to your great-greatgrandmother. It was currently reported that every forest had one within its precincts, who ruled over the woodmen and exacted tribute from them in the shape of little blocks of wood ready hewn for the fire of his underground palace-such blocks as are bought at shops in these degenerate days and called "kindling."

It was said that he had a silver ax, with which he marked those trees that he did not object to have cut down; forest. moreover, he was supposed to possess great riches and to appear but seldom look like an old man in all respects but one, which was that he always carried some green ash keys about with him, ingly at her husband. which he could not conceal, and by which he might be known.

Do I hear you say that you don't benot. He certainly does not exist now. you need not disdain." The Commissioners of Woods and Forests have much to answer for, if it "Why, Will, there is not a tighter cot- very strongly. Such was the change of the money-in fact, no one would was they who put an end to his reign; tage than ours in all the wood, and that had come over this loving couple have known them for the same people. but I do not think they dld. It is more with a curtain, as we have, and a brick that they presently began to quarrel, They quarreled almost every day and likely that the spelling-book used in floor, and everything so good about and from words the woodman soon got lost nearly all their love for one anwoodland districts disagreed with his us-"

little black-timbered cottage, at the ful," said he. skirts of a wood, a young woman sat before the fire rocking her baby, and, they made him a bed on the floor, and a terrible headache that he could nelas she did so, building a castle in the spread clean sheets on it of the young ther eat nor work; but the day after, selves happy, yet, strange to say, none of reward."

rich !"

It had been a bright day, but the little chamber. ed the glowing logs that were blazing wife, as soon as they had shut the bring them home in, and great was she could not dig deep enough and breakfast.

said his wife, going up to him and

"What are they?" ask the Ouphe. "One is a spinning-wheel," answered the woodman; "she used to spin a good

mother." "She shall have a spinning-wheel," replied the Ouphe; "and is their nothing else my good host?"

"Well," said the woodman frankly, 'since you are so obliging, we should, like a hive of bees."

"The bees you shall have also;" and now good morning both, and a thousand thanks to you."

So saying, he took his leave, and no pressing could make him stay to break-

"Well," thought Kitty, when she spinning-wheel is just what I wanted: but if people had told me this time yesterday morning that I should be offere a knapsack full of money and should

Miscellaneous.

Interesting to "Middlemen."

Messrs. Platt & Newton of San Francisco, in their circular, give the following .

An important lawsuit is now on the tapis, growing out of a 40,000 gallons contract purchase of Neutral at \$1 20. owing to a third party to the contract having turned up, going between the buyer and seller, and pocketing 10c. per gallon as his share of the transactlon; he having actually bought the spirits at \$1 10, selling it at \$1 20, and then getting the distillers to bill it to the latter at the advanced rate, takin a note for \$4,000 as his share of the transaction, payable when the matter was closed. The spirit has all been delivered, and half the purchase money paid, but the balance is refused unlesthe \$4,000 is deducted from the bill of purchase. Some nice points of mercantile law will doubtless be presented on the trial. The parties to this transaction are all prominent, wealthy business men.

New Cable Projects.

Two new trans-Atlantic cables will be laid by the close of this year. One of them is now being taken on board the Great Eastern for the Fren Cable Co. The other will be laid by new corporation. The Great Wester Telegraph Company, and will extend frem Land's Eud, England to the Bermudas, thence to New York, with a branch line from the Bermudas to St. Thomas, which will secure communihealthy and good-tempered—not at all cations with the West Indies and South America.

A new, corporation, the American and West India Telegraph Company has applied for permission to land a cable on some part of the coast of California, the work to be undertaken withiu two years. A trans-Pacific Cable would complete the telegraphic circuit of the Globe, and we hope we will not be kept long waiting for some company to undertake the project of supplying the missing link.

The eruption of Mount Vesuvius, it is stated, has ceased, and the inhabitants of the villages threatened with destruction by the burning lava have you slept?" said the Ouphe in a gentle returned to their homes. Additional troubles, however, have fallen upon them. A hurricane of terrible violence has swept over and devastated the country, greatly damaging the

Prince Bismarck, of Germany, is again indisposed, and his physicians insist on absolute rest, or the consequences may be serious.

Advices from Zanzibar, an island on many good things to eat, that in the sack was buried and began to dig; but The weedman had gone out to cut the south coast of Africa, state that evening was chilly, and, as she watch- "Disdain, indeed!" laughed the end he was obliged to buy a wagon to the garden was so trodden down that some fresh cresses for his guest's 150 vessels have been destroyed by a

Newspaper Laws.

We would call the special attention of postmasters and subscribers to the following synopsis of the newspaper

1. A postmaster is required to give notice by letter (returning a paper does not answer the law) when a subscriber does not take his paper out of the office, and state the reasons for its not being taken; and a neglect to do so makes the postmaster responsible to the publisher for the payment.

2. Any person who takes a paper from the postoffice, whether directed to his name or another, or whether he has subscribed or not, is responsible for

3. If a person orders his paper discontinued, he must pay all arrearages, or the publisher may continue to send it until the payment is made.

4. If the subscriber orders his paper to be stopped at a certain time, and the publisher continues to send, the subscriber is bound to pay for it if he takes it from the postoffice. The law proceeds upon the ground that a man

must pay for what he uses.

5. The courts have decided that refusing to take newspapers and periodicals from the postoffice, or removing and leaving them uncalled for, is prima facia evidence of intentional fraud.

net.

Eighth—Bright and leafy tobacco should be prized light.

Ninth—Prize in keeping order.

Tenth—Cooperage: See that the head of each hogshead is well secured by good and substantial lining hoop, and have your cooperage well seasoned.

Memoranda Concerning Nails.

This table will show at a glance the length of the various sizes and the number of nails in a pound. They are rated from "3-penny" up to "20 penny." The first column gives the name, the second the length in inches, and the third the number per pound. From this table an estimate of quantity and suitable sizes for any job can be easily made:

3-penny, 1 inch long, 557 per pound. 11/4 66 141 101 31/2 34 Spikes, 41/2

REVIEW OF THE MARKET.

Trade in the leading departments is of a quiet character, this being the close of spring and the opening of the summer season. The plies. In the hardware line there is less activity, with some depression in prices, but, with reduced stocks on hand, the dealers are

Breadstuffs are less active than for several weeks and the advance in prices has been checked, yet fancy brands of flour continue tions current last week. The late general rains have been highly beneficial to the growing crops, especially winter wheat, and it has exerted an influence to check the upvard tendency of prices.

The active season for bagging and rope has not set in, yet we notice good stocks on hand with fuil rates maintained, in the articipation of a large increase in the crop of cotton this year. The manufacturers are at work at their full capacity, making power-loom full-

weights, which are most in request.

The provision market is steady at about former quotations, with an increasing order demand and agradual reduction of stocks in both packers' and dealers' hands. The movement in live hogs is falling of very mate rially, and summer packing is being confined to narrow limits. This is having the effect to strengthen the feeling among holders of cured meats, and the market closes firm.

The wool trade is in advance of the usual season, with a manifest firmness on the part of holders and farmers, which is not as freely met as heretofore by dealers and manu turers. The advance in prices has had the tendency to increase both the clip and production of sheep and checked the consump.

is improving. The whisky trade has been fair all the week, with a gradual reduction of old stock. which, however, continues large in this market. The production of new is light and highwines have advanced to 85c.

The weather during the current week has been seasonable, with two days of almost continuous rains, which have been highly propitious for the crops.

Dolly Varden bed-bugs are about.

LEAF TOBACCO.

WEEKLY REPORT.

The market has been less active during the current week, with but meager supplies. The prevailing rainy weather has been highly favorable for prizing, and increased re-ceipts are anticipated the coming week. Prices are well sustained for all grades, with an increasing demand and upward tendency for all bright and manufacturing leaf. The season for the sale of redried leaf has not yet opened, as the staple has not sweated out and ripened sufficiently for use. The House of Representatives having addresses the staple has not sweated out and ripened sufficiently for use. The House of Representatives having addresses the staple has not sweated out and ripened sufficiently for use the s of Representatives having adopted the new revenue bill assessing the tax on tobacco at 29c per b on all grades, it is likely that the Senate will also pass it without adverse amendment, and that it will become a law. This will be highly beneficial to the plug manufacturers in this city, and It is likely to vastly increase the home demand and con-sumption of the staple. The sales of the season since Nov. 1st have been 23,168 hhds, against 28,024 hhds at the same date last year. The sales for the week at the warehons have been as follows:

The cultivation of the poppy from drives a Dolly Varden equine. THE PROPERTY OF STANDARD OF THE

COTTON.

The cotton market for the past week at all points has been quiet, with a moderate de mand, almost wholly confined to supplying the Immediate wants of Spinners. The Liverpool market evinces a strong tone with an upward tendency. The confidence of holders is mainly based upon the great decline in receipts at all the domestic ports, while the styles. Foreign 200ds of all kinds are quiet.

Brown sheetings and shirtings, in light weights, are in fair demand. Standards are of the new crop are also less favorable. The large short interest, together with the advance in Liverpool, gives a strong tone to the market, resuiting in an advance in good ordinary of 1/4c and grades above of 1/4c during the week.

The New York quotations for the week

ending the 17th last. (future delivery, basis low iniddling) were:

Total sales of this description for the week were 63,500 bales. Immediate delivery sales have been 3.047

bales, including 280 for export, 2,548 for consnmption, 224 for speculation and none intransit. The receipts for the week ending 17th, at ai:

the ports have been 15,187 baies, against 17,219 last week, making the total receipts since Sept. 1, 1871, 2615,595 bales, against 3,715,454 for the same period of 1870-71, showing a decrease this year of 1,099,859 baies

	The details of receipts	are as follows:	
1	•	1872.	187
	Received this week at	Pales.	Bale
	New Orleans	6.570	16,5
	Mobile		4.7
	Charleston	1,308	3,5
	Savannah		4,7
	Texas	244	6,1
1	Tennessee	2,564	6,2
1	Florida	21	
	North Carolina	297	5
	Virginia	1,238	2,5
	Total receipts		45,0
	Decrease this year,	29,889	

The exports have reached a total of 19,413 baies, of which 9,842 were to Great Britain, 2,868 to France, and 6,103 to the rest of the Continent.

The stocks, are now reported to be 240.070

The following table shows the quantity of cotton in sight at this date of each of the two

	past seasons, as made up by cable t	cickind

The Tenacity of Truth.

When a nation as clear-headed as the Americans once become convinced from long experience and observation, that an article possesses superior ex-cellence as a medicine, not all the precellence as a medicine, not all the pre-posterous clamor of all the worthless nostrum venders in the universe can shake their belief in its efficiency. Truth is a very tenacious thing, as these worthles are beginning to dis-cover. PLANTATION BITTERS has too cover. PLANTATION BITTERS has too firm a hold upon the popular esteem to be in the slightest degree affected by the cold water diatribes which the advertisers of fermented slops, "without a particle of alcohol," are so fond of launching against alcoholic preparations. The public knows very well that this peerless renovant and tonic does not contain spirits, but it also knows that they are of the purest Croix, the most active and beneficial Croix, the most active and beneficial diffuser of its system and invigorating properties throughout the system which could possibly be adopted.

Pimples on the Face, Eruptions, Scrofulous diseases, and all sores aris-ing from impure blood, are cured by Dr. Pierce's Golden Medical Discovery.

News for the Enemer.

Selling Cheese for Cash.

During the present season a friendly rivalry has existed between Utica and Little Falls, the principle dairy markets in the state of New York, in reistion to the sale of cheese. For many weeks the quotations of the Little Falls market were slightly higher than those of Utica. This difference of a fraction of a cent a pound is accounted for by the fact that only strictly cash sales were made at the latter place, while to some extent time sales were made at the former. The wisdom of factorymen in refusing to sell for anything but cash on delivery, even if in my county. I had manured my tothey sold for a slightly less price has become apparent. One of the largest frms that have been doing business at Little Falls, Ernst & Chist, has falled, and it is reported that another firm, that of S. T. & J. H. Edwards, also of New York. has gone into bankruptcy. The liabilities of the first firm are \$54,-497.28, while their assets are only \$4,-\$21.51. They offer to pay in this proportion, between eight and nine cents en the dollar, but their creditors are debating whether to accept it.

Fifty thousand dollars is a large sum for a small number of dalrymen to applied the same mixture to my wheat pounds. Previous to 1850 the walnuts lesse at a time when they want to make now growing, with an addition of half used in California were all imported a final settlement with their patrons. The past season has been a trying one looking well, and will be reported upon nearly 30,000 pounds annually. The to most who have been in the dairy in due time. business. The price of cheese, at no time high, was very low during a considerable portion of the year,

The truth of the matter, says the Prairie Farmer, is there are too many

Another remedy is a the market, not selling for as much generally known that soot is a powerstrong lye made from tobacco leaves per barrel as the poorest quality of ful manure-nearly as much so as mixed with soft soap. The wooly cooking pear. At present it is useless guano, bulk for bulk, and the saving aphis, or bark louse, is destroyed by to include this variety in a list for the of it need cost little or nothing. It is whale-oil soap, and by a lime wash. orchard for the Western market: in fact, necessary to the safety of every Trees very badly affected should be cut There is no demand for it, unless there house that it should be carefully colap and burned.

Remedy for the Cut Worm.

James H. Cox writes to the Rural

Messenger as follows: I have been very much annoyed and subjected to severe loss, for the last several years, by the cut worm destroying my young corn. To prevent this, I made a mixture of equal parts of Peruvian guano, salt and plaster, and had about a tablespoonful put into each hill, as the corn was dropped. This effectually prevented the ravages of the cut worm, and the young corn grew off vigorously and made me a fine crop. I determined to make an application of the same mixture to my tobacco, and did so with wonderful success and I have the best crop of tobacco I ever raised and I think the best bacco land, as I always do, with domestle manure, before the application. After supplying the corn hills and the tobacco with this mixture, I had some left, which I applied upon corn, two hundred pounds to the acre, without other manure, and the yield was not only satisfactory, but unexpectedly if not extravagantly large. I make this

Watermelon Juice.

A correspondent of the Prarie Farmer gives us some hints on the uses of of larger size and bearing the best of watermelon juice for domestic pur- nuts. These trees were set out by the risks incident to cheese making for the poses: "I endeavor, every year, to missionaries. Los Angelos county Corner of Eleventh and Main Streets manufacturer to furnish capital to raise a good watermelon patch. They supplies a large demand for walnuts; cheese dealers to do business with, and are a healthy and delightful fruit, I and as Southern California becomes selling cheese to dealers on time think. I cultivate the icy variety; more settled, walnut trees will be amounts to this. The handling of plant early in April, and again to- grown more extensively, adding an incheese is attended with more risk than wards the end of the month, so that creased resource of wealth to this dealmost any commodity. It is a per- they may come in succession. When ishable production, not only subject to they commence ripening we comall the accidents that other things are, mence cutting, and use them freely but liable to spoil on account of the during the hot weather. When the weather becomes cold in September, we haul a quantity of them to the house, split them open with a spoon, turesome, since what is gained goes scrape out the pulps in a cullender, into his pockets, and what is lost and strain the water into vessels. We comes out of the pockets of those who boil it in an iron vessel, then put in apples or peaches, like making applebutter, and boll slowly until the fruit is well cooked, then spice to taste, and you have something that most people will prefer to apple-butter, or any kind of preserves. Or the syrup may be boiled without fruit down to molasses, which will be found to be as fine as any sugar house molasses. We have made in a fall as much as ten gallons of the tings from last year's vines and they apple butter, if I may so call it, and molasses which has kept in fine condition until May.

Root Crop for Hogs.

ers grow root crops Occaself, Jackson Lewis, Esq., of San sionally a patch of carrots or mangolds inches long, in two equal segments are found, but as a general thing they fitting closely together, is inserted in We recently read the communication constitute no part of the standard an orifice made with a common augur of P. E. Bucks to the Canadian Farmer farm products. Still all experience in the centre of the fallen log. had much to do with the Texas steers,

Mexico would soon be depopulated. When one of them gets sick the irascible patient will cat nothing, no matter how daintily prepared, that a sensible demestic ox, under circumstances of distress, would gladly receive. And when a Texas steer gets "on the left" and his herder tries to help him up, the | G. SPRATT. case is particularly dangerous. Should he, aided by friendly but sadly misled neighbors, succeed in setting the animal on his feet, the ungrateful brute immediately charges on his rescuers like a whole regiment of lancers.

The Pacific Rural Press says the first mixture. I bought one ton of Peruvian | English walnuts were planted ln Los guano at \$75, one ton of salt \$20, one Angelos county in 1857. They comton of plaster \$20, making three tons menced bearing in three years, the for \$105. I shall certainly try the same crop increasing every year. In the mixture the coming spring. I have year 1863 the crop amounted to 9,200 a ton of bone dust. The wheat is now from China and Chili to the amount of flavor of the walnuts raised in Los Angelos is finer than that of the imported nuts. Near San Gabriel, or the Gabriel Mission, the walnut tree is found lightful portion of the State.

The fence is a costly fixture. Illinois is said to have ten times as much fence as Germany, and Duchess co., New York, more than all France. A narrow path divides farms in France, Germany, and Holland. In Sonth Carolina the improved land is estimated to be worth \$20,000,000; the fences have cost \$16,000,000. The annual repair is a tenth of this. A recent calculation places the cost of fences in the United States at \$1,300,000,000. Nicholas Biddle, thirty years ago, said the Pennsylvania fences had cost \$100,000,000. In Ohio they are put at \$115,000,000, and in New York at \$144,-900,000. Some days fences will probably disappear, and boundaries be marked with fruit and shade trees, or neat hedge-rows.

An ingenius Georgian has invented a "rail-splitter." by which an immense pine log can be riven in a very brief But a very small precentage of farm- time. A small iron cylinder or tube, about a half inch in diameter and slx

FARMERS' & DROVERS' BANK, Treasurer

At the earnest solicitation of the Trustees of the Public Library of Kentucky, I have consented to act as agent. To the management and control of this undertaking my time will be devoted, from the sale of the first ticket to the payment of the last gift. It will be my duty to see that the money arising from the sale of tickets is deposited in the Farmers' and Drovers' Bank, to remain for the payment of the offered gifts; to see that the drawing is fairly conducted, and that those who draw gitts are promptly paid on presentation of their tickets, and this duty I shall perform to the best of my ability. This concert is giver for the purpose of enjarsing and making self-sustaining a free library, already the largest and most valuable ever known in Lopisville, and it is to be hoped that, for so laudable a purpose, every ticket may be sold. Knowing the object is a good one, and the means lawfut, I shall do all I can to make it the success if deserves, and which I doubt not it will attain.

Those who wish to act as agents for the sale of tickets can learn terms hy addressing me as above directed. Note but those who can give the best of references need apply. Liberal terms will be given to competent persons who can furnish satisfactory references.

CONGRESSIONAL SUMMARY.

THURSDAY, May 16. The Senate passed the following bills: Approving the location of the Washington depot of the Baltimore and Potomac railroad; authorizing the President to negotiate with the Shoshone and Brannoch Indians for the reservations of portions of their reservation in Wyoming; to provide for the sale of certain Indian lands in Kansas; for the sale of the Black Bob Indian lands in Kansas; to confirm to the answer to express it in dollars and Great and Little Osage Indians their cents: reservation in the Indian Territory; to pay the Montana Indian war debt of 1867; to confirm the sales of the Shaw. arate right hand figure from product, nee lands in Kansas; granting the right of way to the Pensacola and Louisville railroad; to create an additional land district ln Minnesota; to secure homesteads to actual settlers; concerning the Agriculturral College grant to Oregon; to settle land titles n Iowa; in relation to settlers on certain reservations in Minnesota; in relation to settlers on the West Wisconsin railway lands; authorizing the construction of a bridge over the Mississippi at Red Wing, Minn. The House passed the following: Authorizing the witnesses in United States Courts to testify in their own behalf; a joint resolution to adjourn on the 3rd of June at noon; to create an additional land district in Kansas; the Senate bill relating to the erection of land disicts; granting the right of way to the Dakota Grand Trunk railway; granting the right of way to the Utah and Northern railway; granting the right of way to the Missouri Valley

FRIDAY May 17. The Senate passed the House bill to provide for greater security of life on vessels propelled in whole or in part by steam, and concurred in the West Point appropriation conference report. The conference report on the Indian appropriation bill was also agreed to.

railway; for the relief of certain homestead settlers; to confirm entries of land under the act of August 4, 1854.

The House report of the conference committee on the bill to provide houses for the Pottawattomie and Shawnee Indians of Kansas in the Indian Territory, and concurred in the Senate amendment of the bill authorizing a railroad brige across the Mississippi river at Fort Madison, Iowa, The committee of the whole on the tariff bili agreed to a proposition by Mr. Beck, of Ky., to make one-third of the customs duties receivable in legal-tenders.

SATURDAY, May 18. The Senate passed bills to authorize the re-issue of bonds burned or de- Large Pay for Spare Hours, for faced; for the relief of Charles Wagner; a resolution requesting the House to return the Senate joint resolution for final adjournment May 29th, and debated the army appropriation bill. The House passed bills to establish the collection district of Duluth, and make St. Paul a port of entry; to pay 308 loyal Southern private claims examined by the Claims Commission, ranging in amount from \$12,000 to \$65-000, and aggregating \$349,394; the Senate bill to Dr. J. Milton Best, of Padueah, Ký., \$25,000 for the destruction of his house by order of the commanding general; for the relief of the Louisville and Bardstown Turnpike Company; to pay Conner, Representative from Texas, \$2,000 for expenses of defending his seat in the Fortyfirst Congress, and other private claims. Conference reports were agreed to on the Indian appropriation bill, the West Point appropriation bill, and the consular and diplomatic appropriation bill.

TUESDAY, May 21. The Senate passed a bill for adjusting the claims of New Hampshire for money advanced to volunteers, and debated the habeas corpus bill. The House concurred in the conference report on the bill for the refunding of taxes on distilled spirits destroyed while in bond, and passed bills to incorporate the Loomis Aerial Telegraph Company and relative to the centennial celebration of independence.

WEDNESDAY, May 22. The Senate (continuing in session all Tuesday night and till 10:20 a.m.

Full lines of new style Prints, Brown Sheetfungs, Bleached Muslins, Tickings, Plaid Osnaburgs, Erown Drill, Apron Checks, Sea Island
Muslins, &c. Wednesday) passed the bill extending the time within which the President shall have power to suspend the writ of habeas corpus so as to include the Presidential campaign; a supplemental civil rights bili, applying to places of entertainment and amusement and to means of transportation; an amnesty bill, passed previously by the House, which excepts only Senators and Representatives in the 36th and 37th Congresses, persons in the judicial, naval or military service of the United States, heads of departments cale and foreign ministers. Wednesday afternoon the Senate passed the House supplementary appropriation bill.

The House concurred in the Senate amendments to the bill granting the

right of way over the Rock Island bridge, and adopted a resolution lnstructing the Secretary of the Treasury to investigate certain charges against Mr. Mullett; the supervising architect of the Treasury and report specific answers thereto.

Excellent Interest Rules.

For finding the interest on any principal for any number of days. The answer in each case being in cents, No. 97 1-2 FIFTH STREET, separate the two right-hand figures of

Four per cent.—Multiply the princi- GEO. M. GLOVER. pal by the number of days to run; sepand divide by 9.

Five per cent.-Multiply by number of days and dlvide by 72.

Six per cent.-Multiply by number of days; separate right hand figure, and divide by 6.

Eight per cent.-Multiply by number of days, and divide by 45.

Nine per cent.-Multiply by number of days; separate right hand figure and divide by 4.

Ten per cent.-Multiply by number of days and divide by 36.

Twelve per cent.-Multiply by number of days; separate right hand figure and divide by 3:

and divide by 3:
Fifteen per cent.—Multiply by number of days and divide by 24.
Eighteen per cent.—Multiply by number of days; separate right hand figure and divide by 2.
Twenty per cent.—Multiply by number of days and divide by 18.
Twenty-four per cent.—Multiply by number of days and divide by 15.

CONVENIENT FOR REFERENCE. When computing interest at four per cent., two places pointed off from 1 right of the principal gives the increst upon it for ninety days.

į	At 5 pe	er cent	gives the	pointed on	72 days
